ProLite E1900S-B | 19"

The new iiyama entry-level range is the monitor of choice for all home and office applications. An extremely nimble 5-ms response time also makes it ideal for games and videos. Superb picture quality is complimented by crisp contrast and powerful brightness. The ProLite E1900S has one D-Sub and one DVI-D signal input and is available in black or silver.

Megapixel describes the size of your desktop and therefore the amount of information your display can show. A lcd with a physical resolution of 9.2 mega pixels (3840 x 2400) can show 6 times more information than a display with 1.3 mega pixels (1280 x 1024). That means your desktop is about 600 percent bigger.
